Getting Ready

Create some space

The Therapists will arrive approx 30 mins prior to the party start time to set up their equipment so please make sure that you can clear some space for them. Both Therapists will arrive with mobile therapy tables. Any room in the house can be used for the treatments, and we can usually manage in the smallest of places, however, if you are at all concerned about space or suitability please give us a call.

Suggestions for creating the right party atmosphere

Fun, fun, fun is what the girls want to have, but in an organised manner. I will ensure the pampering is contained to a designated area, the craft activities need to have a separate space. Pop music is always a favourite to be played whilst dressing-up and showing off their new look.

If relaxation is the main priority for your party then why not play some chilling out music and have some crudities with some fresh dips, for a healthy option. Light nibbles like popcorn; savoury biscuits etc work well with a Pamper Party, as the girls will be up and down with treatments and chatting.

Why not have a few girlie movies to hand for them to watch or ask them to bring their Nintendo DS's to link up in between treatments? A pyjama / slumber party is popular with older girls.

If you want a full on party, I can supply party game prizes.

The Treatments

Fully qualified and insured therapists give all treatments;

Beauty Therapy

Facials

A wonderful refreshing treatment for the face, individual for your skin type.

Make up

For younger girls a simple light party make-up is applied. If wanted I can add a bit of glitz with skin gems, glitter and delicate face paint?

Make up Lesson (older girls)

Let us bring out the best in you. Make up lessons allow the individual to learn about the application of make up that will best suit their requirements. An ideal opportunity to experiment and try something different.

Manicure

A mini-manicure includes shaping the nails, applying hand cream and varnishing with their favourite colour.

Nail Art

This is performed on pre-manicured nails. Painting designs on your nails is something that has become extremely fashionable. Nail Art is done using, rhinestones and paint. All nail art can be removed with acetone nail polish remover.

Pedicure

A mini-pedicure includes shaping the toenails, massaging the feet and varnishing with their favourite colour.

Products used for Beauty Treatments

All products used are hypoallergenic and mostly from child ranges, therefore non-toxic.
